Carl-Giesecke-Straße 6, Göttingen, 37079

Jun 6, 2026

Writing this letter feels unusually difficult for me. Years ago, when I was a street vendor in Kabul and a high school student with dreams larger than my circumstances, writing an intention letter was easy. I once wrote one in a couple of minutes that helped me win a Turkish government scholarship. Back then, my world - though full of hardship - was simply understood, and so were my motivations.

Today, I write to you from Göttingen, Germany, a city of science, as a graduate with a double major and a wide-ranging skill set (as outlined in my CV). My journey from Kabul to Turkey to Germany has reshaped not only my environment but also my inner world. With every step forward, life has become more complex - and so have the questions I carry. Yet, my desire to study sociology remains unchanged, though now it is deeper, more urgent, and more informed.

My interest in sociology began with a personal pain: witnessing the struggles of people in Kabul's streets. At first, I tried to process this pain through poetry and calligraphy. But artistic expression was not enough - I needed to understand the social structures causing that suffering. This realization led me to sociology, a disci+ pline I pursued in Turkey with great passion.

In Turkey, I encountered not only a new culture but also new ways of thinking. My academic journey exposed me to thinkers across history and disciplines: from Weber's bureaucracy to Foucault's discourse, from Plato's idealism to Camus's absurdism. These studies helped me frame my questions better, even if they didn't always offer answers. During this time, my intellectual curiosity expanded beyond the classroom. I read Kafka, Hedayat, Sartre, and Dostoevsky, trying to reconcile philosophical inquiry with social reality.

I also studied political upheavals, historical trauma, and the rapid technological transformations shaping our world that I was witnessing; In Afghanistan, the Taliban was about to seize power, COVID-19 was killing people worldwide. On the other hand, AI was rapidly overtaking all arenas of society.

Currently, I am in Göttingen, studying German and taking courses in data analysis. While I am acquiring valuable skills, I feel a growing sense of alienation from my original purpose. The problems I once thought I could address now seem more elusive, more complex. But instead of discouraging me, this sense of uncer+ tainty has deepened my resolve.

I want to continue this intellectual journey at Ibn Haldun University - a place I believe offers philosophical depth, interdisciplinary richness and more importantly an environment having items of my original motives. I hope to collaborate with diverse minds and refine my sociological perspective. My ultimate goal is to contribute to understanding and solving the pressing social issues that once inspired me to take this path.

Sincerely,

Abdul Hadi KOMAIL

ABDUL HADI KOMAIL

PROFILE

In a world that reduces human experience to data and algorithms, I use data, design, and code to explore its complexity instead of simplifying it. With a background in sociology and international relations, I see digital tools as just one limited but useful way to approach the complexity of human nature.

EDUCATION

International Relations
Selçuk University, Konya, Turkey (2019 – 2023)

Focus on conflict resolution, social values, and migration studies.
Research project: "The Impact of Migrants' Social Values on the Integration Process."

Sociology
Selçuk University, Konya, Turkey (2018 – 2022)

Specialization in the analysis of social values, conflicts, and migration.
Bachelor's thesis: "The Impact of Social Values of Afghanistan's Ethnic Groups on Conflicts in Afghanistan."

INTERNSHIP, EXPERIENCE & VOLUNTEER

Internee
Georg-August-Universität Göttingen (August 01, 2023 - October 15, 2023)

Research assistance related to the conflicts in Afghanistan
Research proposal preparation on Immigrants' Social Value Orientations
Presenting the research proposal to the chair of development ecomonics

Field Researcher
RMTeam & DRC (July 29, 2022 - August 28, 2022)

Conducted surveys with beneficiaries and checked data quality
Supported the overall monitoring of program activities
Participated in implemeting monitoring plans in the coverage area

Representative
Hazara Öğrenciler Kültür ve Dayanışma Derneği, Konya (March 2019- March 2020)

Assisting new coming students with accomodation and univesity regestration
Organizing cultural and solidarity events
Organizing educative and entertaining toures

Internee
National Institute of Planning - NIP (July 20, 2020- Septemberd 20, 2020)

Designing research proposal
Survey and data collection
Analyizing data using Excel and SPSS

INSIGHT

Data analysis

Python (Pandas, NumPy, viz)
Jupyter & Google Colab IDEs
SQL for queries and data tasks
Tableau for dashboards
Excel (formulas, pivots, charts)

Social Research Methods

Qualitative & Quantitative
MAXQDA for coding & analysis
Survey design and execution
Academic literature review
Mixed-methods integration

EXPRESSION

Graphic Designing

Illustrator (vector graphics)
Photoshop (editing, composition)
After Effects (motion graphics)
Infographic & data storytelling
Branding assets & visual layout

Calligraphy

Nastaliq (traditional and digital)
Blending classical & modern forms
Custom artwork for logos & posters
Culturally-informed visual design

COMPUTER SKILLS

- Ms. Suite
- SPSS
- Tableau
- MAXQDA
- Adobe Illustrator
- Adobe Photoshop
- Adobe Indesign
- Adobe After Effects
- SQL
- Python
- CSS
- HTML

PERSONAL SKILLS

- Creativity
- Empathy
- Critical Thinking
- Time Managing
- Teamwork
- Communication
- Leadership
- Responsibility
- Emotional Intelligence
- Problem Solving

CERTIFICATES

Statistics
University of Amsterdam (March 16, 2023)

Qualitative Research Methods
University of Amsterdam (March 04, 2023)

Python for Data Science, AI & Development
IBM (December 30, 2022)

Tools for Data Science
IBM (December 19, 2022)

Quantitative Research Methods
University of Amsterdam (December 16, 2022)

SQL for Data Science
University of California (November 30, 2022)

AWARDS

Erasmus+ Internship Program
2023
Selçuk University & Georg-August-University Göttingen

Üstün Başarı Bursu (High Achievement Scholarship)
2021 - 2022
Yurtdışı Türkler ve Akraba Topluluklar (YTB)

High Honor Student
2020 - 2021
Selçuk University, Sociology Department

Double Major Program (International Relations)
2019
Selçuk University

Turkish Government Scholarship (Sociology)
2017
Yurtdışı Türkler ve Akraba Topluluklar (YTB)
